

# COME TOGETHER FOR A BETTER COMMUTE

## WHAT IS ENTERPRISE RIDESHARE?

It's smarter than driving alone and better than a typical carpool.

Enterprise Rideshare identifies 4-15 coworkers who live near one another and helps them form a vanpool

They meet at a central location and board a newer model van or SUV

Using the HOV lane, they ride to work and back to the meeting point

They share driving responsibilities, rotating daily or weekly

We provide quarterly impact reports detailing emissions reduced, commuter miles eliminated and more

## HOW IT BENEFITS YOUR COMPANY

- 01 Reduced demand for parking
- 02 Zero to reduced cost to implement (with IRS Code 132(f))
- 03 Decreased FICA taxes for your company (and a pre-tax benefit for employees)
- 04 Carbon footprint reduction and tracking program
- 05 Turnkey, hands-off program administration
- 06 Recruiting and retention benefit
- 07 Eases the stress of office relocation
- 08 Sets the standard for corporate citizenship

# OUR RIDERS REDUCE 1.9 BILLION POUNDS OF CARBON EMISSIONS EACH YEAR

THAT'S THE EQUIVALENT OF:

**815,000** ACRES OF US FORESTS  
IN ONE YEAR

**22+** TREE SEEDLINGS GROWN  
MILLION FOR 10 YEARS

**218** WIND TURBINES INSTALLED

*Based on the EPA Greenhouse Gas Equivalencies Calculator*

## ENTERPRISE RIDESHARE MAKES A BIG DIFFERENCE

Enterprise Rideshare ranks as **the fourth largest public transit provider** in the United States, based on passenger miles.

Every business day, **Enterprise Rideshare takes 100,000 cars off the road**, reducing congestion and wear and tear on community infrastructure.

Each year, Enterprise Rideshare **eliminates more than 2.4 billion commuter miles driven**.
