

# BRING YOUR COMPANY A SMARTER WAY TO WORK

Commute with Enterprise benefits your business and your employees. We make it easy for your employees to share a ride to and from work—connecting people who live near each other and providing the vehicle.

Your employees save money, get back time for themselves and arrive in a better state of mind. And, fewer solo drivers will help your company reduce carbon emissions and parking congestion.

## How It Works

The program is designed to meet your business goals.

We connect coworkers who live near each other and supply the recent-model SUV or van.

Track success with real-time reporting and quarterly impact reports.

From onboarding to maintenance, Enterprise is there for support.

## Benefits For Your Business

### ✓ Retain and Attract Top Talent

50% of people say that their commute significantly impacts the way they feel about their job, according to Forbes. Offering employees an easy way to get there is a competitive benefit that makes employees excited to be part of your team.

### ✓ Reduce Infrastructure Costs

By reducing the number of cars commuting to your office each day, your business will spend less on parking infrastructure. And, you can use those savings to invest in your business or people.

### ✓ Improve Sustainability

Employees want to work for environmentally responsible companies. By making it easier to share rides, your company can dramatically reduce its carbon footprint, and your employees will help eliminate 1.1 billion pounds of carbon emissions and 1.5 billion commuter miles every year.
